Holt County Sentinel. Don't be In a Hurry

Oregon, Missouri. FRIDAY MORNING, SEPT., 28, 1866.

Not Another Brick. It is not often that we find hasty people willing to make the amende honorable, as was the individual mentioned in the following anecdote. A punctil-lious regard for the truth is highly to be commended, and below we find a nice sense of honor on one side, with a Or Indeed any of the numerous articles needed still nicer nicety on the other.

A man said of a virago with a loud, masculine voice: "Confound that woman's throttle! her voice will reach the Go To Wm. H. Storrett's

The woman, hearing of the remark, insisted that her husband should call on the man, and demand either a retraction LARGE STOCK OF GOODS, PURor an apology, and if the man would do neither, the husband was to chastise

Husband-"Sir, I am informed that you say my wife's voice is so loud and masculine it will reach the fifth story of any building. Did you or did you not make that scandalous assertion?"
(Holding a whip significantly in view.)

Man'—Well, my dear sir, I can't say positively. I might, upon the impulse of the moment, and rather think I did

say five stories. Perhaps it is an exag-geration. It is pushing the thing pretty strong, I admit. I am willing, sir, now that I am cooler, to take off one story, but not another brick."

SOMETHING THAT WILL PAY .- Every cultivator ought to raise enough first rate seed of all his staple crops to at least supply his own needs. But com-paratively few will give the extra care in cultivation, etc., necessary to secure a prime article, and hence choice samples always have a ready demand, at money. Select some one or two staple articles, and make a specialty of reising them for seed. Each year, sow or plant none but the best, place it under the most favorable conditions, possible as to avorable conditions. sible as to exposure, soil and cultivation, and in a few seasons by judicious management a grade may be reached and a reputation be made that will bring a rich return. Whoever could to-day offer 500 bus., of oats, barley, or spring wheat acknowledged to be the best of their kind in the country, could command his own price, within reasonable limits, and perhaps a little be-

In his New York speech, (and on almost every occasion since,) the Pres- Continue to manufacture and keep on hands an ident made the following statement:
"Every position of honor and trust

has been bestowed on me by this peo-

him the office of Chief Magistrate! It is generally supposed that he was nominated and elected to the Vice Presidency, and that his present position was due simply to the assassination of a man who stood in the way of his promotion—an assassination which Mr. Johnson referred to in his Cleveland speech as "the work of righteous Prov-

Oh, no, Andy! The people didn't elevate you to your present position—a fellow by the name of Booth did that job. Unfortunately for you, he is now no more. What an ardent supporter your "policy" lost when he gave up the ghost. His untimely death was a sorghost. His untimely death was a sor-ry thing for you, Andy but you have several more of the same sort left. You can find them at New Orleans whenever you want them.—Lawrence Tribune.

LONDON is a world in itself. The last English census develops the carious fact MERCHANT TALLORS, don than in Edinburgh, more Irish than in Dublin, more Roman Catholics than in Rome, and more Tows than in Palestine. Next to London, perhaps, New York is the most cosmopolitan of cities. It has not so many Scotchmen as Edinburgh, but according to the census it has nearly as many Irish as Dublin, while as a German city it is probably STATE IN STRUCE COMP'Y. while as a German city it is probably the third in the world, ranking next to Berlin and Vienns.

weighing are not at hand. Multiply the length, breadth and hight into each other, and if the hay is somewhat settled, 10 solid yards will make a ton. Clover will take from 10 to 12 yards per ton."

Sewing Machines

Were Awarded the Highest Premi-ums at the State Fairs of

New York, Kentucky, Vermont,
I Rew Jarsoy,
Pennsylvania,
Ohio,
Iediaba. Minchil, Alabama, Mississippi, Virginia, N. Carolina, California, Michigan, Wisconsin, Iqwa, Oregon.

AT THE PAIRS OF THE. American Institute, Franklin Institute, Maryland Iostitute, Mass. Mechanics' Association, Pens. Mechanics' Association, Pens. Mechanics' Institute, St. Louis Agricultural and Mechanics' Association, and at numerous Institutes and County Fairs, fineluding all the Fairs at which they were exhibited the past three years. First prizes have also been awarded these Machines at the exhibitions of

London, Paris, Dublin, Linz, Bes-ancon, Bayonne, St. Di-zier, Chalons, And they have been furnished, by special com-

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The GROVER & BAKER Elastic, stich, Sewing Machines are superior to all others for the following reasons:

1. They sew direct from the spools, and require no rewinding of thread.

2. They are more easily understood and used, and less liable to derangement tuan other, machines.

chines.

8. They are capable of corcuting perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stich made by these machines is much more firm, clastic, and durable, especially upon articles which require to be washed and ironed, than any other stich.

5. This stick owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpniess and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be out or broken at intervals of only a

though it be cut or broken at latervals of only a
few stitches, it will neither open, run, nor rayel,
but remains firm and durable.
7. Unlike other machines, these fasten both
ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon alkarticles sticked or made up with

silk.

9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned; and practised, execute the most beautiful and permanent embroidery and ornamental work.

nently located at No. 65 St. Charles street, between sixth and seventh, one square south of Lindell Hofel, a redired spot in the centre of the city.

Consultation rooms, and rooms for the accommodation of such putlents as require daily personal attestion.

Everybody

Can get, in a scaled lectur savelop, my Theory, Symptoms and Treatment of Nervous, Uniary and Sexual Diseases, clearly delineating all the diseased conditions; with full Symptom Lists, for two three equipostage stamps to propay postage. Of Pedicaty, Menatruation and Pregnancy, Sc. 1141-19

TILLCOX & IBBS WILL Stitch, Hem, Pell, Tuck, Cord, Bind, Braid, Quilt, and Embroider beautifully. It will with the finest seedle and thread, run from perfect work on the finest Nainsoon, over the heaviest beaver cloth and cowhide, with no change of needle, thread, or tension.

WILLOX & GIBBS SEWING MACHINE.

change of needle, thread, or tension.

WILLOUX & GIBBS SEWING MACHINE
will use coarse cotton, linen, silk and twine. It
runs easier, faster, and stiller than any other
machine. It forms a flat, even, and classic
seam, differing from every other siltoh, each
loop being twisted by means of the

"Rolating Hook?"

and drawing the twist into the goods, thus securely fastening every stitch, so that the saam
will bear to be cut at frequent intervals, and in
that case even, the seam is warranted sor ro
rur in wear, and under all circumstances to
survive the washinb. A Patented Device prevents the possibility of the machine being run,
in the wrong direction, or the balance wheel ever wearing or touching the dress. By another
ingenious Patent improvement,
The Needle cannot be Set Wrong.

Thus avoiding the great trouble of other machines. In this it is so easy that a child might
set if in the dark with unerring correctness evry
time.

No Breaking of Needles. ...
